## Superintendent Of Sanatorium Protests Local Dump Conditions

### SELECTMEN STILL HAVING TOO MANY EXECUTIVE SESSIONS

Harold McKelvey of Border Ave., well known Democratic leader, met with the Board of Selectmen at their regular meeting Monday evening to protest what he termed a "Menace" newly arisen in his neighborhood. Mr. McKelvey reported that a junk yard has been formed near his property, but in the town of Woburn. The fence, of old lumber, Mr. McKelvey considers a definite fire hazard, also the surrounding brush and trees. In his opinion, if a fire started here it could sweep down to Main St. to Eames St. in short order. Mr. McKelvey also stated that this same property is used for many diverse purposes, mostly unpleasant, unsanitary and annoying. Chief among his complaints was the matter of trucking on Border Ave. to reach these properties. The Board moved to close the street to trucking due to

the street not having a hard surface.

Other matters taken up during the short portion of the meeting open to the press, included the announcement that the tax title land sale advertised for June 12 has been postponed until Wednesday, July 24.

A petition was received signed by a number of residents of Wildwood St. and vicinity, requesting the selectmen to take action to abate conditions arising from what they termed a "kennel" on Wildwood St. The Town Manager advised calling a hearing to investigate the matter thoroughly.

4-H leaders are to be asked to meet with the Board to discuss methods of instructing juvenile horse riders on the proper places to ride horses. This action stems from the many complaints received relative to the conditions caused by the horses on the planting strips.

A motion was passed to request the Wilmington Housing Authority to petition for Urban renewal for the North Wilmington Station area.

Members of the Board unanimously agreed that a fine job was done by the Reading Light Co. in restoring the sides of the road on Lowell and Woburn Sts. where the underground power lines were installed recently.

Town Manager Courtney reported that microfilming of

The Old Timers will again line up with a top notch club. They will have in their line-up such stars as Joe O'Brien one of the only active members of the Old North Cambridge Club. Bill Burns formerly property of the St. Louis Cards farm system playing the initial sack. Dick Watson at second base formerly of Northeastern University.

### Last Polio Clinic June 26

Patrick Thibeau, town sanitarian announced today, that the last polio clinic will be held on June 26. This is the last time that free vaccine will be available. Shots will be given to all those who have signed up and have not received the prescribed three doses.

There may be some extra vaccine when these shots are given in this eventuality some who have missed out for one reason or another may be able to still obtain the vaccine. If you have children eligible, call Mr. Thibeau at Town Hall, and he will advise you.

### Cottage Broken Into

On Friday, and Saturday, June 7 and 8, police received reports from two property owners that their cottages had been broken into and damaged.

On June 7, Deputy Hoban investigated a complaint made by Joseph Leto, of Medford, who stated that his cottage on Lee St., had been broken into and windows had been shattered.

Wilmington's infamous dump has once again raided the ire of all connected with it. The public, who has to pay, are out nearly a thousand dollars for the conflagration on June 1, those who have long advocated rubbish collection are once again annoyed at those whose shortsightedness permits such conditions to persist, and the head of a sanatorium for children with respiratory problems once again is trying to alleviate the situation.

Dr. Clair Twinian, Supt., of the North Reading Sanatorium once again protested the maintenance of a dump in such close proximity to his institution in a letter to the Board of Health last week. Dr. Twinian stated that the fire at the dump located less than half a mile from the sanatorium, brought embers within twenty feet of the buildings and that he was forced to call the North Reading Fire Department to stand by; hoses were laid and a fire truck kept on the hospital grounds during the fire.

The Mass. State Department of Health, contrary to reports elsewhere, has taken no action, nor is any anticipated. Dr. Twinian, on Tuesday, called the Health Dept., and was informed that his many complaints bore no weight as no petition had been received. On receipt of this news, the Doctor informed us of his intention to petition the State Dept. to institute action to close the dump.

The re-occurring fires are not the only problem arising from the town dump; vermin, rats and obnoxious odors also annoy the small patients (all under 18) at

the hospital. The children also suffer from emotional upsets during the excitement caused by the fires.

In talking with officials in the town of Wilmington, few condone the conditions that now exist. However, unless some action is taken Wilmington not only lets itself be open to criticism as a poor neighbor, it also invites legal action which will force the closing of the dump and a hurried, unplanned relocation.

The Board of Health has sponsored an article in the Town Warrant at the last two regular town meetings for rubbish collection. Voted down both times as an "economy measure", advocates of collection gather some ammunition from each dump fire for another try at the project. The Finance Board did not recommend the article; the Town Manager spoke against it; Selectman Hagerty spoke long and eloquently in favor of the proposal, but NOT, he said, as a representative of the Board of Selectmen.

The question has been asked before, and will be asked again; Why the opposition? Who is so stubborn about the dump-and-why?

### Triple Dose Clinic June 18

The third clinic for the triple-dose whooping cough, diphtheria and tetanus shots will be held at Legion Hall, on June 18.

This is for those children who have already been receiving the vaccine.

## As My Garden Sleeps

By Mari Gold

Free advice, no one likes to get, but everyone likes to give. Here in this column, I have an opportunity to really enjoy myself. I can give all the free advice I want to, without anyone butting in or talking back. How many people have such a chance? How many readers I have, I don't know. I have had a few folks mention that they read "such and such" in Mari Gold's column. I hope, however, that there are more than a few and that they are getting some practical information.

While you are waiting for things to grow, be sure to keep an eye out for insects. As I have said before, once they get a hold, it is pretty difficult to get rid of them. Don't go around thinking that ants in your garden are

harmless creatures. They harbor aphids which they use to produce food. Drive them away by cultivating. You may also use ant poison. Ants are a real menace. If they are allowed to get out of control in your garden, they will move right into the house and attempt to push you completely out of your kitchen or pantry.

Aphis are small insects, green, red, black yellow or white in color. They are usually found in clusters on stems or leaves. If they are on the leaves, the leaves will be curled up tight. The aphids will be found within these curls. They may be controlled. Add nicotine to your other sprays or dusts. Pull the curled leaves off the plants and burn. I have found the Aphis on such plants as Peonies, Lupines and Nasturtiums as well as several others. They have also been found on the new growth of shrubs.

June is the time to set the sundial. This instrument should be chosen according to the degree of latitude in which the garden is located. One which will fit your garden, may not fit at all the garden of another city. The time to set this clock is on June 15. Set it so that the shadow falls on 12:00 at exactly noon on this date.

A few "dos" and don'ts". Watch for Rose suckers from root stocks. It is best to cut these off. Cultivate Roses until June 15, this helps control the rose bug. Don't forget successive plantings of Gladiolus. June is the last planting which may be done for bloom before frost. Cutting the flower spike as soon as the flowers bloom will allow strength to go into the corom. Train Dahlias to one stalk and be sure to stake it firmly. Fertilize when first buds form. Do water the Delphiniums well, cut down the stems as the bloom ends. Watch out for black flight. A spray is recommended for this. One ounce of dry sulphate and one half ounce black leaf fourty in two gallons of water. Don't forget the Iris. Watch for the borer. Soft and slimy leaves are his calling cards. Remove and burn all infected leaves, or the entire plant. Do plant Chrysanthemums before the end of this month.

One of our most popular flower friends is the faithful Petunia. It grows under all sorts of conditions. In rich gardens or window boxes it is just as much at home. It has been termed the "national flower" due to its great popularity. It ranges through miniature, compact dwarfs, dwarf giants, budding, balcony, giant ruffled and they come in all colors.

Another favorite is the Zinnia. Practically everyone professes a liking for this flower. It is most suitable as a cut flower. There are a number of types, the Petunia there are so many, it would be impossible to name them here. Zinnias grow fast when planted in June as they like heat. Plants sown in the open ground produce better flowers. There is still time to plant Zinnias.

We have plenty of showers so far this season to help the lawns to turn and remain green. However, a dull lawn mower can ruin the appearance of your lawn. As well as ruin the "looks" it will pull out the grass, bend it over or leave ridges. Now is the time to raise the wooden roller as the grass must be "cut longer" in the hot weather. Care must be taken to adjust the roller evenly on both sides.

Poison Ivy at this time of year begins to be a great nuisance, but it's foliage is beautiful. For those who could not recognize this menace: It is a creeping vine with lovely shiny green leaves. These leaves are three pointed.

Every inch of this pretty plant is harmful to the average person. Small plants growths of this pest may be killed out in a few weeks by covering them closely with boards or heavy paper which is weighted down. This will cause a smothering process to take place. Sodium Chlorate applied as a weed killer, sprayed on the vines and around the roots will eradicate the menace.

There are preparations available at your seed store. However, some are not particular about what else they kill so long as they get the poison ivy. Be very careful using them near your trees or other garden treasures. Some of these "killers" will also render the soil sterile for some time.

## TRUE PATRIOTISM

Daniel Webster once said, "God grants liberty only to those who love it, and are ready to guard and defend it."

The history of our country proves that freedom, our most precious heritage, must be re-won in every generation. There is always a battle to fight, a victory to win. Patriots have never hesitated to risk, and often to give their lives in the defense of freedom. For they know that without freedom, life would be intolerable.

Benjamin Franklin said, "Where liberty dwells, there is my country." It is related that when John Adams was dying on the 4th of July, he heard a cannon being fired in celebration of Independence Day. His last words were: "Independence forever."

Do we have an enemy to face today? Does danger confront us? Yes, we certainly have the menace of world Communism.

But more dangerous even than is the enemy of domestic crime, and juvenile delinquency. It is disturbing to know that the F.B.I. has on file the fingerprints of six million known criminals.

We cannot hope to win victory over foreign enemies unless we can win victories at home. The victories at home should be won in the home.

It is only when the parents of America take the lead, and set godly examples for their children, that juvenile delinquency and crime may be banished.

The weekly meeting of the Rotary Club was held Wednesday at noon, at the Masonic Hall with president Herbert Pickering presiding. After the usual opening ceremonies, the president called upon Rev. Stanley Cummings to offer the invocation. It was decided to dispense with the singing due to the lengthy program to be offered.

The president introduced rotary guests from Reading and Lawrence. Raymond Fitch introduced his guest Everett Aubrey.

Secretary Stanley Cummings announced to the group that the board of directors had voted to appropriate \$200.00 to go towards developing Rotary Park.

The president introduced Carl Thresher who is connected with the Esso Oil Co.

Mr. Thresher showed two travel films put out by his company. They were entitled "Persia Faces Today" and "The Great Silk Route." The films were greatly appreciated, and the group ended their meeting with a clearer knowledge of some of the people of Asia.

## TRAIN AT AGRICULTURAL SCHOOL

The following Wilmington students are now in the project-placement period of their training at the Essex County Agricultural School. For six months cooperating employers act as teachers on the job. The students are visited regularly by specialty instructors from the School for purposes of guidance and instruction, and they are expected to send in weekly reports of their activities on the job. These reports are carefully graded and studied for English as well as from a vocational point of view.

Allen Hancock, 8 Dunton Rd., is doing greenhouse work, plus some design work for Winchester Conservatories, retail grower; Sandra Hibbard, Roosevelt Rd., is doing general greenhouse work at F. I. Carter and Sons, Tewksbury, growers of houseplants and cacti; Richard Mottolo, 45 Church St., is on a farm in Hinesburg, Vermont.

## HOUSEHOLD HINTS

There's an alarming trend among homemakers who pride themselves on keeping beautiful floors to feel that "floor wax is floor wax - and any old wax will do."

This is true in general - the waxes put out by the better known companies are all good; all will protect and improve floor surfaces. But here the catch comes. Containers for floor waxes

are usually labeled "for use on hardwood floors" or "for use on linoleum, vinyl, tiles", etc.

These use-specifying labels are put on the cans for a purpose; if use information is not supplied, we suggest you do not buy the wax - and here's why.

The easy-spreading qualities that make hardwood floor "clean-as-you-wax" products so popular today usually come from a solvent, which is also the cleaning agent. This is fine for wood surfaces in your home - in fact, a tremendous improvement in obtaining a cleaner floor with less work than necessary with old-fashioned methods. However, the solvent that has improved your floor wax is harmful to asphalt or vinyls.

Conversely, the water in self-polishing waxes recommended for asphalt or vinyl floors will eventually spoil your fine hardwood finishes.

Taking care to read the label on wax cans before you buy will help you avoid these mistakes. In the long run, it actually costs no more to buy two cans of wax for use on different surfaces in your home.

A little extra elbow-grease during spring cleaning time can save you lots of sweaty labor during the sticky days ahead.

Put a paste-wax polish on your hardwood floors after you've cleaned them with a good floor cleaner. You'll need to buff this wax to a bright lustre, but its tough finish will last throughout the summer months.

There's a new liquid paste wax on the market, put out by the hardwood floor manufacturer, E. L. Bruce Co., that goes on the buffs more easily than standard paste waxes. It's the ideal answer for homemakers who dread the hard work of paste-waxing, but desire this long-lasting floor protection.

When party preparations include precautionary waxing of cocktail and end tables, unhappy post-mortems on water-stained table tops can usually be omitted. The wax coating prevents liquids from soaking into and marring wood finishes, if wiped up reasonably soon. Use of a good cleaning wax is also a fine way to remove sticky fingerprints when the party's over.

However, in choosing a wax, be sure to select one that specifically states on the container "for use on hardwood floors" - these are the waxes also recommended for furniture. Waxes made for use on kitchen tiles or vinyl can do as much damage to wood surface as water itself.

Porch and patio tiles are among the hardest to keep clean and new-looking for it is in these areas that street and yard dust hold unrestricted domain.

Frequent hosing or soap-and-water scrubbing will keep the dust itself in check, but tiles lose their lustre quickly in outdoor locations.

To help restore their original beauty, try using an asphalt tile cleaner... the

same one you use on your floors.

Save muss and fuss by cleaning shoes with Bruce Cleaning Wax. Teen-agers have discovered it's an easy way to keep saddle or white kid shoes neat and clean. Will not remove scuff marks, but does clean thoroughly and eliminate the powdery finish shoes get after repeated cleaning with white shoe polish. For best results, first clean with the wax to remove dirt that regular shoe polishes merely cover up, then coat with white shoe polish to cover badly scuffed areas. Cleaning wax is also excellent for

## EASTER SEAL NEWS

The Wilmington - Lowell area has raised \$5,444 which is 86 percent of its goal as a result of late returns to the 1957 Easter Seal campaign, it was reported today by John K. Eaton, assistant cashier of the Middlesex County National Bank and area treasurer.

He expressed appreciation to the many contributors

for their response to the \$285,000 state-wide appeal of the Bay State Society for the Crippled and Handicapped.

"Although we did not reach our goal," he said, "the number of contributions indicates that many persons are interested in the future of crippled children and adults."

Among the services which Easter Seals supports are rehabilitation centers in Boston, Springfield and Worcester; a J.O.B. (Just One Break) Program, which helps to provide jobs for the physically disabled; occupational, physical and speech therapy; architectural counseling and community planning for the dis-

abled, and student training in the field of rehabilitation. State-wide contributions to the annual Easter Seal appeal were reported officially at \$246,809, which is 87 percent of the goal. Persons who may still wish to contribute towards year-round Easter Seal services for crippled children and adults may do so.

## JUNE DAIRY FESTIVAL

For the second year, the Massachusetts Department of Agriculture, and the dairy farmers of New England, who supply the Boston market with fresh milk every day, will cooperate to present the greatest display and exhibition of dairy cows, farm machinery and educational features on Boston Common ever seen at this historic site.

During ten days, the people of greater Boston, and visitors from other New England States, will have the opportunity to see the finest modern dairy cows, the latest farm machinery in action, equipment used on dairy farms, and a host of entertaining program features.

Special ceremonies will mark the opening of the

festival on Saturday, June 8, at noon. Throughout the day there will be a series of daily events and activities.

The history of the Common, and the significance of this area for the New England dairy enterprise, will provide the background for the unusual grazing of cows on the world's most famous cow pasture in the heart of the city.

Safety Tip: If you must turn around on the highway try this: Drive Past the nearest convenient driveway. Back into it, and then proceed in the direction you want to go. That way you're

FACING the highway when you enter it. Never BACK your car into a traveled road if you can avoid it, says the Triple-A.

NEW EXPRESSWAYS IN  
NEW ENGLAND SAVE  
VACATIONISTS TRAVEL  
TIME AAA REPORTS

New expressways are making the choice vacation areas of New England more accessible to vacationists from other parts of the country, as well as for residents of the six state area, the American Automobile Association said today.

To show how the new super highways reduce travel time, the AAA's Massachusetts Division has just released a study of driving hours to points in New England in 1957 as compared with the "pre-turnpike" era. "Our study shows some surprising savings," Robert S. Kretschmar, AAA's General Manager in Boston reports. "Travel time from most points in the U.S. to New England has been substantially reduced. Savings run all the way from one to six hours.

"Knowing that 85 per cent of all vacation travel is by automobile, a potential tourist industry boom is easy to predict. New England residents will benefit twice - first by driving time savings on their own vacation; second, by the general prosperity for the region which outside tourist dollars will bring."

Typical of the time savings for motorists coming to New England from other states are:  
From the west motorists will speed over the new Indiana and Ohio Turnpikes connecting with either the Pennsylvania Turnpike or the New York Thruway, then the new Massachusetts Turnpike - which cuts travel time from the Berkshires to Cape Cod to five and a half hours from the usual eight. Saving of two hours.

Chicago: Via Indiana, Ohio, Pennsylvania, and New Jersey Turnpikes, New York and Connecticut Parkways, Massachusetts Turnpike to Route 128. Twenty hours super highways all the way. Previously 26 hours 45 minutes. Saving of 6 hours 45 minutes.  
Buffalo: Via New York

Mrs. A. M., Watonga, Okla., adds, "Middle age was torture. Had costly shots 3 times a week but got no relief. Then took Pinkham's Tablets. They brought me new happiness, comfort!"

Science offers women new freedom from much of the misery of change-of-life, thanks to an amazing new tablet developed especially to relieve these functionally-caused discomforts. Doctors reported sensational results using this remarkable home treatment alone... and no costly injections!

medicines... acts directly on the cause of these troubles... works through a woman's sympathetic nervous system to relieve tense feelings and physical distress that bring unhappiness to so many. Clinical tests prove this.

Now this amazing formula is at drugstores without prescription. Ask for "Lydia Pinkham's Tablets". Don't let change-of-life rob you of joy! Get handy Pinkham's Tablets. Contain blood-building iron. ### HEALTH FOR ALL

To the June Bride

One of the saddest Cinderella stories ever told was the one about the struggling young actress, who won the heart of a millionaire.

Her family who had practically disowned her for seeking a stage career now opened their arms. They killed the fatted calf when she came home to prepare for her wedding. (Quote a change from living on mal-

ted milks in a Broadway drug store.) "Friends" who had laughed at her struggles were now only too glad to prove their undying affection.

Party followed party. Showers rained. In between, there were fittings, arrangements to be made, changed, and made all over again, thank-yous to write as the gifts poured in. If Cinderella got four hours sleep out of the 24 she was lucky. Plenty of chicken in patty shells and fancy desserts were set in front of her, but she was too excited to eat much. Between parties she lived on sandwiches and black coffee.

The wedding went off as scheduled: the biggest the town had seen for years. At last Cinderella found herself with the Prince in a first class cabin on the Queen Mary setting out on their honeymoon trip to Europe. She was sick the first day out, and the next, and so on. The sights of Europe were doctors' offices, hotel bedrooms, and medicine bottles.

This sad tale is not an unusual one. Too many brides start out on their honeymoon completely worn out by the wedding preparations. The first weeks of marriage are difficult enough without the added complication of a bride suffering from indigestion, exhaustion, and frayed nerves.

If you want a real wedding and a happy honeymoon, pay a visit to the family doctor before the festivities shift into high gear. He'll give you a thorough check-up and words of wisdom. You'll do well to follow his advice. Remember that the wedding is, after all, only the prelude to the main event.

### GROSSMAN'S INTRODUCES "FIX - UP GUIDE"

Free for the asking, Grossman's new "Fix-up Guide" makes its bow this week with hundreds of tips for bringing new beauty and comfort to your home at lowest possible cost plus the fun of easy "Do-It-Yourself" methods and materials.

More than a quarter-million copies, printed for first release, are being mailed to regular customers and given to visitors to Grossman stores throughout New England when requested. Because of the expense of compiling and printing this new Handbook of Materials and Methods, the publication will be given the nominal price

of 35 cents.

In announcing publication of the new catalog, company president Sidney W. Grossman suggested that people with building and fix-up problems drop in to their nearest Grossman yard or store as soon as possible because demand for this first edition is already tremendous.

"Everything you need to fix up and improve your home is shown in this big book", Mr. Grossman said. "And each page - nearly a hundred of them - has a full column of hand, 'Do-It-Yourself' hints on how to make the best use of the materials shown on that page. For instance, the professional, easy ways of handling plywood are explained in plain, clear language on page 20 and 21.

"An easy index to let you put your finger quickly on the solution to any problem is on the back cover. A quick run-down of this index will give an idea of the wide range of ideas in this new Guide for the home-owner and contractor.

"Every department of L. Grossman Sons, which we are proud to call New Eng-

land's most complete building materials concern, is represented in this book. We couldn't possibly ask a newspaper to run the entire list in its news columns, but some idea of its inclusiveness can be gained when you know it was planned as an all-round service to the public.

"It is also a guide to values at Grossman's, where prices are the lowest of low as a result of our tremendous buying power. Every one of our 21 big branches can supply everything in this catalog, and - don't forget - we give free, without obligation, the help of expert consultants in any building planning or fix-up problem you may have around the house or in your business.

"We are prepared to serve the housewife, the hobbyist, the Do-It-Yourself fan, the woodworker, the carpenter, the plumber, the contractor, the home-owner, the gardener, the flower-grower - in fact we are prepared to serve you if you live in a house or if you make or produce something. Grossman's is your store and this book is your Guide to Better Living.

### NURSES AND ODD FELLOWS BOWLING TEAMS

Nurses from Melrose Hospital came within four points of beating the men of the Odd Fellows in a recent bowling match held in Wakefield. Serving on the team for the nurses were Louise Comfort, Betsy Comfort, Virginia Anthony, Maureen Dami, and Verlie Eaton. (Miss Eaton is the daughter of Bernard Eaton of Main St.) On the team for the Odd Fellows were: Bill Belbin, Arthur Hoffman, Ray Bjork, Bernard Eaton and Danny. When the scores were totaled at the end of the game,

it must have been rather frightening for the men. We wonder if they will dare engage the nurses in another match. Final scores were 1104 points for the nurses and 1107 points for the Odd Fellows.

## SHAMROCK DRIVE-IN ALL DRESSED UP FOR FATHER'S DAY WEEK-END

Father's Day, this Sunday, must be expected to have quite an impact on MABEL'S new, super, self-service, package store. Because the entire store has suddenly taken on a "happy holiday" appearance and the atmosphere in all departments is gifty, gifty and more gifty.

Boxes of new-arrivals of "gifty" table wines from points all over the world are being unpacked and priced for the big, self-service "Wines of the World" department. In fact, last Saturday, we understand, some folks poked through some of the boxes and picked out a "crock" or "basket decanter" even before those Drive-In folks could catalog and price them.) Japan, Yugoslavia, Germany and Denmark as well as many other wine-producing countries of the "old world" are represented in the famous Cressingham & Studie selections of exotic wines from exotic places.

Also, the Libbey (Non-Chip) Flare-Ware and Home Bar-Ware Department is gleaming with dozens of brand-new, moderately priced "gifty" glassware specials for "Dad". New 8-glass Caddy Sets are priced as low as \$4.75, complete. And fancy shaker sets start as

low as \$2.35 (including shaker plus 6 glasses). "Schlitz" coolers this summer are only \$9.95. These coolers would ordinarily sell for about \$15.00. But "Schlitz" pays almost half of the cost in order to advertise on "your" cooler.

We could go on and on telling you of the hundreds of other gifty items MABEL has assembled for your approval, but space will not permit us to do so. Our best advice to all of you Father's Day shoppers is to visit the Shamrock Drive-In before you invest a cent on "Dad's" gift. You'll save money and he'll be "pleased". (see page three)

### WOMEN'S CLUB PLANS FOOD SALE SATURDAY

The Wilmington Women's Club will hold a food sale in aid of its scholarship fund on Saturday, June 15 in front of the Shoecraft shop in Wilmington Square. The sale, to be held RAIN OR SHINE will begin at 9:30 a.m.

Members of the committee include Mrs. Raymond McClure, Mrs. Frank Stevens, Mrs. Henry Hartwell, Mrs. Carl Backman, Mrs. Robert Michelson, Mrs. Roy Hersom, Mrs. Everett Gage, and Mrs. Frank Bishop.

### May Red Cross Activities

Following is a list of the services performed by the Red Cross in Wilmington during the month of May: Home service included 3 emergency leaves; two cases of consultation and guidance; 1 case of financial assistance; 1 report; and 5 instances of limited service.

Safety services included planning a service for the Holy Name Society and assisting Boy Scouts with Camp-O-Rama plans.

One resident was given transportation to a clinic at the Peter Bent Brigham Hospital, Boston.

One volunteer served four hours conducting eight interviews.

### GEORGE HOYT IMPROVED

Friends will be happy to hear that George Hoyt of Woburn St., who has recently been a patient at Winchester Hospital is much improved. We have it from good authority that Mr. Hoyt is feeling well enough to be planting flowers in his window boxes.

### COTTAGES BROKEN INTO

On June 8, Tony Douin of Boston complained to Sgt. Imbimbo that his cottage located at Taplan and Baker St., had been entered without his authority and that a gallon of supreme wine had been taken. Entry was gained by smashing a window and ripping a screen.

### SELECTMEN STILL HAVE TOO MANY EXECUTIVE SESSIONS

Continued from Page 1 Town records is slated to start this week. Such a surprisingly low bid was received for the work that it has been decided to use the remainder of the appropriation for microfilming Town Reports. Selectmen minutes, and other invaluable records, Mr. Courtney also reported that the new Highway Dept. truck will be delivered this week.

The Street Name Committee, appointed to eliminate the many duplications of street names, mostly occurring on "paper streets" (those streets appearing on plans of the town but not developed) is expected to have completed their labors by the first of July.

The meeting, which began at 8:00 p.m., was closed to the press in order to meet with two gentlemen, shortly after. It was reopened at 9:30 and closed again at 10:30 on request of chairman Nicholas DeFelice who stated various members of the board had matters to discuss in executive session.

### THE GREER OLD TIMERS AGAIN CHALLENGE GREER SOFTBALL TEAM

cont. from page 1 Spectacular fielding and hitting while at B.C.

Bob Baker a Wilmington native and former star at Tufts College will start in right field.

On the mound will be "FireBall" Bill Furlong who will be seeking his eight straight win against the Greerites. He at one time held 16 strike outs in one game.

Also to round out the old timers will be John Kalicki former Dartmouth star second sacker and Tom McNally formerly of Boston University and a four letter man for three years. Don Greer, President of the Greer Company and a member of the Old Timers regrets that he will not play this year, due to other commitments.

The Greer team who are currently in second place in the Wilmington League figure this will be the year to tip the Old Timers but that is only their opinion.

Manager Art Stanton figures to have his strongest line up in tack for this game.

Rogers Gauthier will toe the mound for the Greerites and has been unlucky in four starts against the Old Timers and hopes to try to break in the win column.

The team is also make up Al Copeland, Joe Bright, Tony Camereli a mediocre short stop.

Wade Greer formerly of M.I.T. Baseball team who patrols the outfield, John "June" Peresall Tsouranis who is known to his team mates for his spectacular catches.

John formerly played for the Athen's A.C. of Cambridge, Buddy Pilcher formerly of Wilmington High and many other youngsters.

This all shapes up to be a spectacular game. A lot of notables have signified their intentions of attending this annual classic such as Ponder Tselti softball Commissioner out in California who is here on his annual vacation.

The course, which includes many phases of machining, engineering, drafting, etc., is another evidence of the co-operation and community spirit shown by Greer's since their coming to Wilmington.

## PASSING THE BUCK

It has happened. We actually caught the Board of Selectmen "passing the buck" last Monday. Literally, that is. Chairman of the Board Nicholas DeFelice suddenly announced during the course of the evening that he was appointing the members of the press "field drivers". And since this was his responsibility under an old statute dug up when a solution was sought to the problem of loose horses, and since "an animal found wandering the public ways" could well be a buck, we repeat, we caught the selectmen "passing the buck".

Although urged to do so, Chairman DeFelice declined the invitation to swear in the new field drivers at the meeting, announcing that he intended to do so at the next meeting. Now, does Mr. DeFelice figure that the press will be so busy boarding animals at thirty cents a day that they won't have time to come to the meetings and cover the meetings instead of being put out because of too many executive sessions.

## THE SQUEEZE PLAY

Putting 203 of anything in, where you only took 89 out, creates problems. And when the 89 made it a tight squeeze to begin with, it becomes an impossibility. The 89 is the number of high school graduates; the 203 the first grade enrollment for the fall.

This is the situation that the School Department is faced with in September 1957. September 1958 does not pose a problem; it threatens a nightmare in the form of double sessions. If five outside classrooms are to be found for '57, (three have already been hired), John Collins fears that all available halls in three towns would not take care of the situation; therefore how many will be needed for '58? Supt. of Schools double sessions.

The Glen Road School seems doomed to delay. However, whenever it is completed, it will be immediately filled and there will still be no room for the seventh grade pupils coming off the other end of the line.

As a solution to this problem, the School Committee has come up with the recommendation that instead of attempting another elementary or intermediate school in the near future, an addition to the High School be built. This would save much valuable time in finding and preparing land, obtaining an architect (it may be possible to have the same one that build the school) and the myriad other problems that have beset the Glen Road Building Committee.

The School Committee had come up with a very good solution to a very difficult problem. If they receive the proper cooperation on this suggestion, the whole town may be saved an extremely unpleasant situation.

WILMINGTON FIREMEN'S ASSOCIATION

Hi - Lites

Once again the week has rolled around and caught me unprepared as far as the supply of notes on the History of our Dept. is concerned but barring any unforeseen accidents we will pick it up again next week where we left off.

This week sees us at the beginning of our school annual vacation season. (congratulations to all you lucky mothers) when all the children get out of school for the summer. A few well chosen words might go well at this time and by cautioning your young loved ones about swimming in restricted areas in water too deep for them, too soon after eating, fooling on floats and in boats, and general horseplay are sure to make for a safer if not more enjoyable vacation for all the family. It might be wise at this time to call attention to our own Beach area and ask that you go along with the recreation dept., and use the facilities there to make the beach a cleaner and safer beach than any others around us.

Last Tuesday, we had our monthly meeting and although it was a month over due (we had to cancel last month because of the Manchester fire) we voted to cancel our meeting for July and August the vacation months. Our next association meeting will fall on September 3, after Labor Day.

Once again we wish to stress the importance of instructing the children in the careless use of matches and the danger of fires that can result from such a cause.

Below is a copy of the letter our Chief received

from the Manchester Dept. Chief Arthur Boudreau: Wilmington, Fire Dept. Wilmington, Mass. Dear Chief Boudreau, The Citizens of the Town of Manchester and the Board of Selectmen wish to thank you and your men for coming to our assistance in the emergency that our recent forest fire created, and for preventing a very serious conflagration.

The cooperation between the Chiefs of the various departments was outstanding. Each Chief, being fully qualified to take the initiative when the situation so demanded, was a major factor in preventing any loss of life, and saving a part our town from destruction.

We shall be eternally grateful for the prompt and very efficient work done by you and your men.

Very Truly yours,  
George L. Allan  
Edward L. Corley  
E. Ray Kelly

Board of Selectmen  
Manchester

A copy of this letter was also sent to the Local Board of Selectmen.

Well I guess that's done it for now, and just one more statement before I close for this week, remember "A good vacation is a Safe Vacation."

V. F. W. POST AND AUXILIARY NEWS  
by Deb Kleynen

The regular meeting of our Aux. was held June 4, and was called to order by Pres. Rose Lloyd. Mrs. C. LaCreta was accepted and obligated as a new member and was welcomed by the girls.

During new business and due to the resignation of our Jr. Past Pres. as Chaplain, Madeline Higgenbotham (or Higgie to us) was elected as the new Chaplain for the year. She was given her obligation by Past Pres. Rose Gatta. Delegates and Alternates elected to the State Encampment (in Pittsfield) were Rose Gatta, Josie Vadaiques, Madeline Higgenbotham and Connie Leduc. After the meeting, refreshments were served and a tasty menu it was.

Many of our inactive members are reading this column, I'd like to say just this; Why don't you come

down and join us some meeting nite. I'm sure you could enjoy yourself as much as we do. Our meetings are now held the first and third Tuesday of every month. We would like very much to see some of our older members as well as those who have joined with us in the last year or two. I've been in it sixteen years and am still going strong and expect to continue to do so. As soon as our Entertainment Committee has a meeting, we expect to be going strong from then till next April.

I hope Ray and Kay have gotten over the shock of the little surprise party last Friday. I really did enjoy letting you think it was my birthday and the kiddoes enjoyed the cake very much Kay. All in all, we had a good time and it was fun to see George jitterbug even if it did tighten his muscles a little.

I think you had better get some more fast numbers, Don so we can keep George limber.

There will be a regular Post Meeting Thursday, June 13, at Post Quarters. Come on boys, go down to the Dugout and enjoy one another's company.

The Social is still on for Saturday, June 15, and I understand, a surprise menu is in the offering. This is an evening when we can say Come One, Come All! as it is open to the public.

Our get well note this week goes to Bill Cavanaugh Sr., to whom we wish a speedy recovery. I understand Mable Kennedy is coming along fine and expects to be home soon. We are all wishing the same for you Mable and hope once you get home and get your bearings you'll join us again at our meetings.

Until next week  
yours truly

History is repeating itself again. The Mayflower comes once again to the shores of America. The original Mayflower made a memorable voyage from Europe to America 337 years ago, and the Mayflower II has reenacted that voyage.

It is amazing when you see the size of the vessel that anyone would have the courage to start out on a 3000 mile trip across a practically unknown ocean to settle in a totally unknown land. Things must have been pretty bad where they came from to make them want to take such chances.

When they arrived they built their huts, cut wood for their fires, hunted for their food, and so forth. Everything they had, or did, they had to do for themselves.

In three hundred years which in the history of the world is equivalent to less than a second, that small company has grown to 165 million people, with more services and things to make life easier than any other place in the World. Today you need only have a telephone, and not move out of your favorite easy chair, and have any and all services brought directly to you.

One of the most beneficial of the modern devices is an automatic Winkler Oil Burner which provides the finest in modern, troublefree, economical, care-free comfort and convenience in perfect safety with no effort on your part whatsoever.

Of all the wonderful things that this country has developed in the 337 years since the Pilgrims came here there is no thing that has contributed so much the well being of the American people as automatic, modern OIL HEATING. All the other wonderful things we are blessed with lose their significance when the home is cold.

Call us at Reading 2-3290 and we will be glad to bring you the benefits of modern oil heating.

"If you love them, protect them,  
you know they're safe with Oil Heat"
